

Cellebrite Enterprise Analytics (CAE)

Global forensic training

Level

Intermediate

Length

One and a half days
(10.5 hours)

Training Track

Investigators,
Technicians, CSI Staff,
Forensics

Delivery mode

Instructor-Led

Course description

The Analytics Enterprise (AE), one and one-half day class provides participants with the skills needed to transform raw unstructured data or existing information into actionable intelligence. The AE course includes hands-on practical exercises and examples related to criminal investigations, eDiscovery, and intelligence analysis.

Whether the need is to provide decision makers with: information for intelligence-led policing initiatives, creating offender profiles, developing suspect intelligence packages, or hypotheses and inference reports, participants will learn to harness the power of digital evidence using AE.
