

ADVANCED LINK ANALYSIS

Detego Fusion enables investigators to leverage advanced link-building capabilities and expose connections between people, places, devices and cases.

- Use its advanced AI-driven link analysis infrastructure to connect the dots and expose hidden links across digital exhibits
- Access file properties, internet artefacts, communication history (email addresses, call events, contacts, messages, credentials, etc.), device information, financial information and keywords to rapidly identify and link suspects
- Filter data using thousands of pre-configured variables
- Instantly view links between cases using its visual preview functionality
- Benefit from pre-configured variables, including GPS coordinates, hash matches and EXIF data
- Create custom whitelists to prevent displaying known/approved links
- Get users up and running with a minimal training overhead thanks to its intuitive user interface
