ELCOMSOFT
DESKTOP, MOBILE & CLOUD FORENSICS

Integrated Corporate & Forensic Solutions

Elcomsoft Desktop Forensic Bundle

Unlock documents, decrypt archives, break into encrypted containers with an all-in-one Desktop Forensic Bundle.

Completely Recover All Kinds of Passwords

The complete suite of ElcomSoft password recovery tools allows corporate and government customers to unprotect disks and systems and decrypt files and documents protected with popular applications. Based on our internal assessments, our password recovery tools are among the fastest on the market, the easiest to use and the least expensive.

Benefits

- All ElcomSoft password recovery products in their top-of-the-line editions
- Includes every tool you need for recovering passwords and decrypting data
- Synchronized license period for all bundled products make for a seamless, simple update
- If we release a new password recovery tool during your license period, you'll receive it at no extra charge
- Broadest compatibility: hundreds of formats and multiple cloud services supported
- Industry certified: Microsoft Certified Partner, Intel Software Partner, NVIDIA Developer Support
- GPU acceleration: patented technology reduces password recovery time by a factor of 250
- Linear scalability: allows using a number of multi-core and multi-processor workstations connected over a LAN or the Internet with linear increase of recovery speed
- Minimum bandwidth utilization and zero scalability overhead
- Flexible queue control and easy job management
- Remote management of password recovery workstations
- Completely traceable: keeps track of CPU time and resource utilization, password recovery jobs and user activities

Broad Compatibility

Recover passwords to a variety of office documents, archives, encrypting file systems, Windows and email accounts, and remove many more types of password protection.

All Features and Benefits

- **Innovative Technologies**
- **GPU Acceleration**
