

Stalking, Defamation, Copyright, Identity theft

Take authentic online content
to civil and criminal court

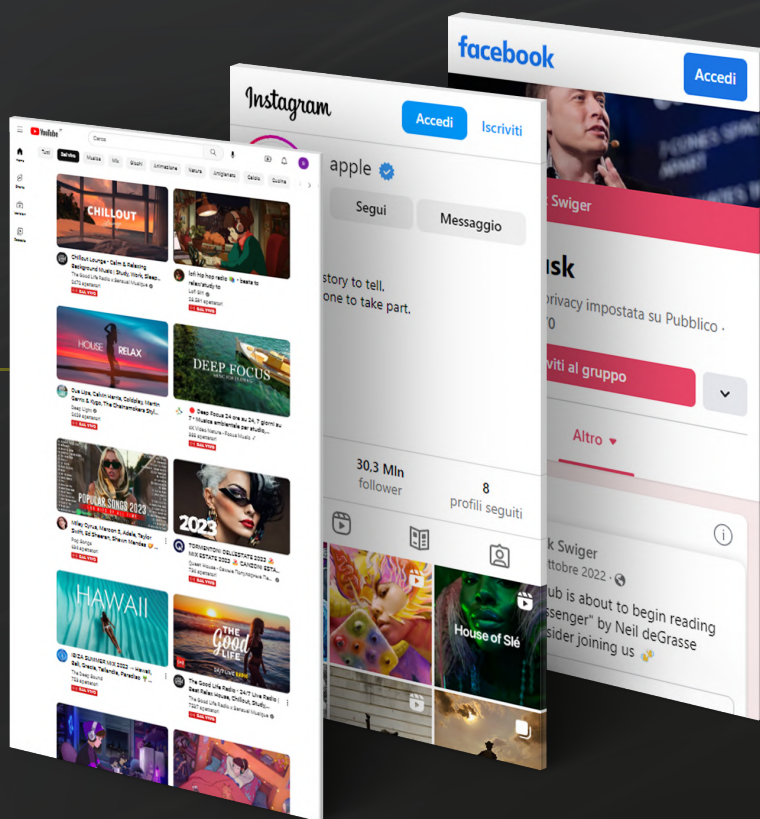

Social content

Chat, Photo and Video

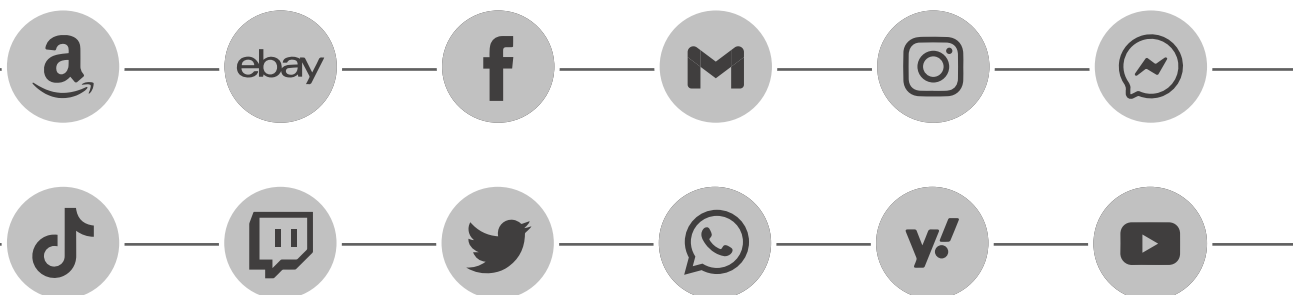

Web pages, emails and
documents

All data acquired using FAW have legal value and can be used in court

FAW is a software that includes a suite of tools to acquire any type of web page: static and dynamic, CMS, Mobile, E-Commerce, Social Network, Dark Web, Intranet, etc.

FAW makes the content collection process easy by doing it for you. The entire acquisition process is managed completely automatically by the software to avoid the risk of human error typical of manual procedures, guaranteeing the undeniable validity of the collected data.

Easy to use

It works like a web browser. Anyone, even users without any IT knowledge, can collect digital evidence independently.

Secure storage

All files are stored on your computer and can be accessed offline whenever you wish.

Certain date

Each document you download has a certain and certified date.

Legal validity

Recognized by the computer forensic community as a standard. All documents downloaded using FAW are legally valid.

Unlimited acquisitions

You can repeat the acquisitions as many times as you wish. Once the license is purchased, there are no usage limits of any kind.

Used by law enforcement

Trusted by the majority of law enforcement agencies in the world, the version for Law Enforcement is designed to store data on the servers at the public prosecutor's office.

FAW is the first forensic browser, the best known and the most used world-wide. Born in 2011, it is a point of reference in the sector, used by technical consultants, lawyers, and control agencies.

FAW is the only forensic browser in the world that guarantees the authenticity, conformity and inalterability of the acquired web pages. The entire software has been developed in compliance with national and international legislation, scientific articles and Digital Forensics best practices.

FAW Professional

The most comprehensive forensic web page capture software. Suitable for technical consultants and professionals who need automated acquisitions, TOR network and advanced tools to speed up the acquisitions optimizing time and resources.

FAW Professional ON DEMAND

The ideal solution to make all the acquisitions you want within 24 hours, at an extremely affordable price. It is ideal for those who need to have all the advanced features of the product to acquire any type of web page with legal value.

FAW Law Enforcement

Forensic web page capture software designed for the Law Enforcement. All the features of the Professional version with more functionalities required by operators of the sector.
