

Utilize the strengths of your team

Whether you're working in a local, regional or special office, Griffeye Operations helps to leverage your entire team's collective knowledge, skills and efforts. Alleviate the stress of working a case alone, reduce heavy workloads, and speed up investigations.

**One case.
Multiple users.**

Designed for group efforts on individual cases, Griffeye Operations gives you and your colleagues a digital base of operations for reviewing and analyzing materials.

Key advantages

Unlock efficient collaboration on digital media investigations

- A powerful server connects multiple users, enabling teams to gather knowledge in a centralized place and work together.
- Automated processes help identify and tag material, significantly speeding up the time it takes to process and analyze each case.
- Information from other systems is easily migrated over, as well as exported for easy sharing.
- User access control and extensive audit logs create a secure environment for collaboration.

Focus on what's most important

A streamlined interface assists in the visualization and review of digital media, while advanced algorithms take care of tasks that you previously used to deal with manually.

- Pre-categorize and prioritize information
- Stack duplicates and filter out non-relevant material
- Detect and highlight critical clues
- Identify relationships

Get started with ease

Intuitive and easy-to-use from the start, the user interface enables you and your team to quickly and easily categorize, prioritize and review digital media.
