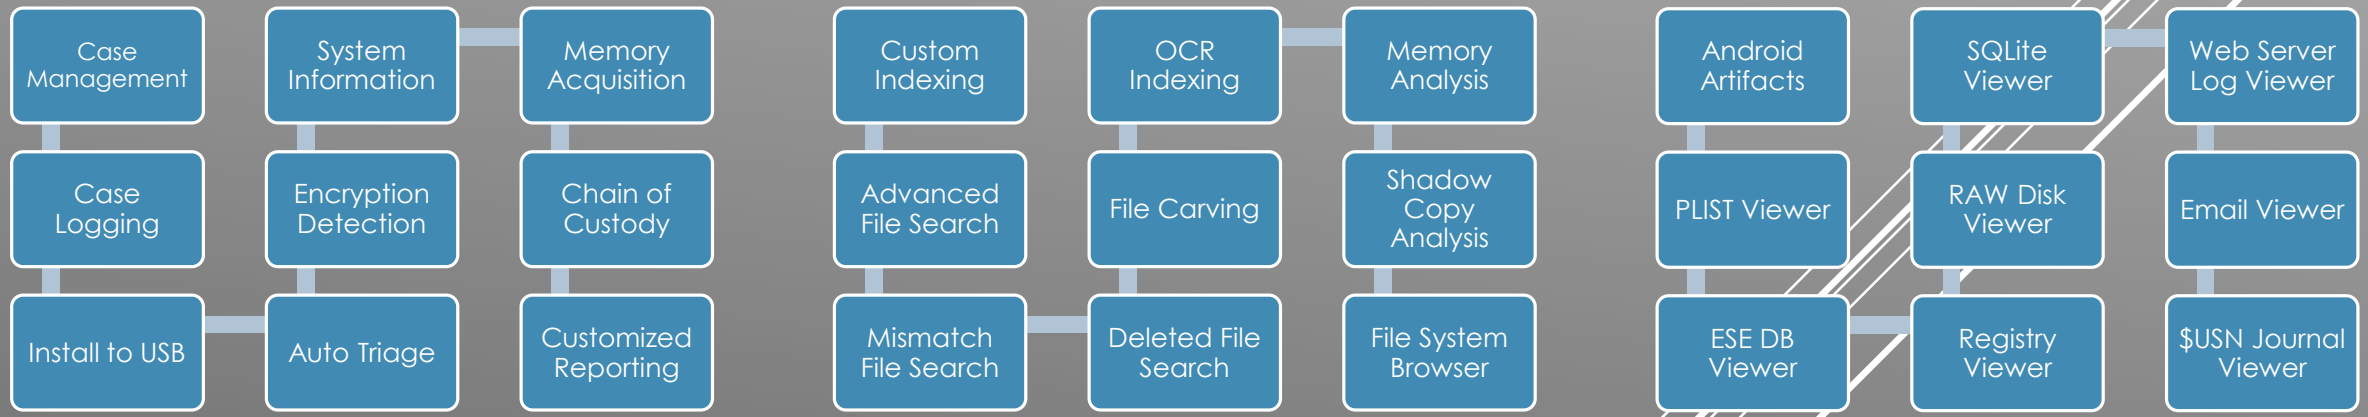
# OSForensics
by PassMark Software

- ✓ Computer Forensics
- ✓ Triage (runs from USB)
- ✓ Memory Forensics
- ✓ Registry Forensics
- ✓ Browser Forensics
- ✓ Email Forensics
- ✓ Imaging Tool
- ✓ Decryption Tool



Get it all today for just **$995** USD @ **www.OSForensics.com**

v8

# OSForensics
by PassMark Software

- Case Management
- Case Logging
- Install to USB
- System Information
- Encryption Detection
- Auto Triage
- Memory Acquisition
- Chain of Custody
- Customized Reporting

- Custom Indexing
- Advanced File Search
- Mismatch File Search
- OCR Indexing
- File Carving
- Deleted File Search
- Memory Analysis
- Shadow Copy Analysis
- File System Browser

- Android Artifacts
- PLIST Viewer
- ESE DB Viewer
- SQLite Viewer
- RAW Disk Viewer
- Registry Viewer
- Web Server Log Viewer
- Email Viewer
- $USN Journal Viewer

- Memory Imaging
- Forensic Imaging
- Logical Imaging
- Android Imaging
- Cloud Imaging
- Rebuild RAID
- HPA/DCO Imaging
- Restore Image to Disk
- Auto convert Image to VM

- User Activity
- Most Recently Used Files
- Clipboard History
- Internet Artifacts
- Wireless Network Activity
- USB Device History
- Jumplist & Shellbag Artifacts
- Prefetch & AmCache Analysis
- SRUM & ShimCache Artifacts

- Windows, MAC, Linux & Android
- Installs to USB
- OSF Script Player
- BitLocker Support & Key Extraction
- Create Bootable OSF USB
- Python API for OSForensics
- Thumbcache Viewer
- Drive Preparation
- Hash Sets (including Project VIC Support)
