

A High Speed, powerful, New-Generation Wiper, with speeds exceeding 60 GB/min in NVMe sanitization, equipped with 12 targets including SAS, SATA, USB, PCIe, FireWire & NVMe interfaces, supporting ITSP.40.006 v2 specifications.

- Extremely fast wiping speeds of up to 31 GB/min (exceeding 60 GB/min for NVMe drives)
- Wipe drives complying with NIST 800-88 guidelines for media sanitation and DoD 5220.22-M specifications and ITSP.40.006 v2 specifications
- Wipe 4 SAS/SATA, 4 USB3, 2 PCIe, and 2 Firewire drives. Wipe 6 NVMe drives using 2 PCIe ports with optional PCIe to NVMe adapters and 4 USB ports with optional USB to NVMe adapters.
- IDE supported with optional adapter.
- SCSI drive support with optional module.

The advanced and new-generation ZX-Wiper™ wiping solution provides secure sanitization of multiple drives. Equipped with a revamped engine and footprint, ZX-Wiper achieves speeds exceeding 60 GB/min when wiping NVMe drives connected through the USB-to-NVMe adapter, and speeds of up to 31 GB/min for other drives. The product supports the new and powerful ITSP.40.006 v2 specifications mode as well as the traditional secure erase mode, a custom pass wipe setting, and a powerful DoD specification 7-pass wipe mode. The ZX-Wiper wipes up to 12 targets, including 4 SAS/SATA, 4 USB3, 2 PCIe, and 2 Firewire drives. Wipe up to 6 NVMe drives through 2 standard PCIe ports (with optional PCIe to NVMe adapters) and 4 USB ports (with optional USB to NVMe adapters). IDE and SCSI support are optional. Product features the easy to use, icon-based interface that is a hallmark of Logicube's advanced family of products.

FEATURES

- The ZX-Wiper supports **SAS/SATA, USB 3.2 Gen 2, PCIe, & FireWire drives**. Total number of available ports is 12, comprising 4 SAS/SATA, 4 USB3, 2 PCIe, and 2 Firewire ports
- Supports up to 6 NVMe drives** by converting the PCIe and USB ports to NVMe by using optional adapters
- Speeds exceeding 60 GB/min** on NVMe drives connected via USB-to-NVMe adapter
- Partial & Full Verify for Wipe Patterns:** Satisfy NIST 800-88 Guidelines for Media Sanitation by selecting a partial or full verify for a Custom or DoD wipe or ITSP.40.006 v2 specifications
- DoD Wipe** supports 7 pass DoD 5220-22M wipe
- Secure Erase** supports a single pass secure erase
- Custom Pass Wipe:** Set a custom number of wipe passes; Gutmann 35 pass wipe can be accomplished using the Task Macro feature
- Network support:** Connect ZX-Wiper to a network; ZX-Wiper includes 2 Gigabit Ethernet ports
- Multi-session capability** allows user to perform multiple tasks - up to 5 tasks can be run concurrently
- Icon-based user interface** is simple to use & easy to navigate
- 7" Color touch screen** provides a bright, responsive display for user input
- Remote operation:** Connect ZX-Wiper to a network & control all operations from a remote computer using a web browser; remotely operate multiple ZX-Wiper units that are connected to the same network
- Advanced administrative functions** allow administrators to manage network settings, create user profiles & save configurations
- Audit trail/log report** provides detailed information of each operation & can be exported to HTML, XML or PDF format
- HPA/DCO support:** Wipe/sanitize hidden areas which may exist on a hard drive
- Task Macro:** Users can set specific tasks to be performed sequentially; automates your processes to optimize & streamline operations
- HDMI port** allows you to connect to a projector or monitor.
- USB 3.2 Gen 2 ports:** 4 available ports for wiping and keyboard/mouse input

Logicube®

A High Speed, powerful, New-Generation Wiper, with speeds exceeding 60 GB/min in NVMe sanitization, equipped with 12 targets including SAS, SATA, USB, PCIe, FireWire & NVMe interfaces, supporting ITSP.40.006 v2 specifications.

OPTIONS

The following options are available for the ZX-Wiper:

- PCIe / NVMe / AHCI / M.2 / mSATA Adapter Kit (complete multi-interface kit)
- U.2 NVMe to PCIe Adapter
- M.2 to PCIe Adapter (supports NVMe & AHCI)
- USB 3.0 to SATA Adapter (with cable & power)
- 18" Extended SAS/SATA Cable Set
- mSATA to SATA Adapter
- M.2 SATA-type to SATA Adapter
- Mini-PCIe to PCIe Adapter
- U.2 NVMe Extension Cable (3 cm)
- 1.8" microSATA to SATA Adapter
- 2.5"/3.5" IDE to SATA Adapter
- 1.8" IDE to SATA Adapter
- 1.8" ZIF to 1.8" IDE Adapter (includes cables)
- eSATA Cable (18")
- USB Flash Media Reader (CF/SD)
- 10Gbps M.2 NVMe to USB Adapter (includes USB-C cables)
- 4-Port USB 3.0 Hub (powered)
- SCSI Module Option (for SCSI drive support)
- 50-pin to 68-pin SCSI Adapter
- 80-pin to 68-pin SCSI Adapter
- Soft-sided carrying case
- Hard-sided carrying case
- 1-year extended warranty
- 2-year extended warranty

IN THE BOX

The following items are included with the ZX-Wiper:

- Built-in power supply & US power cord
- 4 SAS/SATA power & data cables
- 1 CAT6 network cable
- 4 eSATA 6-pin SATA power (for eSATA drives)
- 2 9-Pin Male to Male Firewire 800/800 Cable

SPECIFICATIONS

Power Requirements	Power Consumption	Operating Temperature	Relative Humidity	Net Weight	Dimensions	Agency Approvals
12V DC, Grounded 11.5A	<140W w/drives	0 to 40° C (32 to 104° F)	20% to 80%	2.0 lbs .91 kg	7.6" x 5.5" x 2.6" 193 mm x 139.7 mm x 66.0 mm	RoHS Compliant, FCC Part 15 Class A, CE
